-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This is responsive to the amendment filed 5/9/05. Claims 1 and 3-23 are pending.
2. The disclosure is objected to because of the following informalities:

The specification has been amended to provide serial numbers for related applications; however, it is noted that one of the serial numbers corresponds to this application. If the serial number provided is incorrect, please provide the correct one. If not, reference to this application as a "related" application should be deleted.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 13-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Hanebrink (6,868,331).

A. As per claim 13, Hanebrink discloses a method for developing traffic messages comprising obtaining data indicating traffic conditions for a road network and prioritizing the traffic conditions in an order ("sorting") for transmission to a user whereby the prioritization is based upon at least whether the traffic condition is within a priority location (i.e., route to be driven) or direction affected by the traffic condition (col. 2, lines 12-22, 32-35, 49-52; col. 3, lines 38-41; col. 5, lines 62-67; col. 6, lines 21-30).

B. As per claim 14, as above whereby weighting or relevance factors may be assigned to the traffic conditions (col. 6, line 55 to col. 8, line 10).

Art Unit: 3661

- C. As per claim 15, as above whereby the relationship to a priority location (i.e., route to be traveled) is used to sort traffic conditions and then factors such as direction and time relative to the location of the traffic condition are used to refine the prioritized traffic messages (col. 3, lines 19-50).
- D. As per claim 16, as noted above direction of travel is taken into account.
- E. As per claim 17, as noted above the traffic messages are transmitted in the order in which they were prioritized or sorted (col. 2, lines 28-35).
- F. As per claims 18 and 19, as above whereby only those traffic conditions having the highest priority or relevance among a plurality of traffic conditions are transmitted. The amount of traffic conditions to be considered may be limited by establishing threshold boundaries (col. 5, lines 51-67).
5. Claims 1, 3-12 and 20-23 are allowed.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited document is of general interest.
7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3661

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
